

## WAR CONTRACTS GIVE GROUND FOR UPWARD TREND OF MARKETS

Equipment and Industrial Issues  
Score Advances Ranging From  
Two to Six Points. Steel Enjoys  
Active Trading.

NEW YORK, April 29.—Circumstantial reports to the effect that additional contracts for war supplies had been awarded American manufacturers, contributed to a considerable degree to today's active stock market. Equipment and industrial shares, which recently featured prominently in this connection, scored advances ranging from two to six points. Westinghouse Electric made a high record. In point of actual performance, United States Steel was the pivot around which the list revolved. That stock, on its decline, aggregated about twenty percent of the whole and advanced 7.75 points to within the smallest fraction of the year's best price but fell toward the close to the accompaniment of adverse trade rumors.

Although the volume of business was below that of recent active sessions, today's movement was very broad, taking in almost every division of the list. Coppers have more than maintained their steady advance of the last month, albeit Amalgamated reflected a steady pressure. Declines of a point or more in steel and some other favorites provoked some irregularities at the close.

Total sales were \$58,500. Rates on time loans showed an easier tendency. Americans reflected moderate inquiry in London. The Bank of England statement reported another small loss in gold with a reduction of "liberal" reserves. The local bond market yielded none of yesterday's strength but the trading was much flatter. Total sales for value aggregated \$1,220,000. U. S. Bonds unchanged as call.

(By City Item.)

Bank of England rate unchanged at 5 percent.  
Southern Railway places order for 25,000 tons of rails with Tennessee Coal & Iron Company.  
Wabash reorganization plan completed.

Four thousand American machinists have already gone to England to work in munition factories.  
State of Tennessee borrows \$1,000,000 from bankers until July 1.  
United States industrial alcohol plants operating full capacity day and night and meet output until 1916 sold.

Alfred drive forces three miles up Richardson's peninsula.  
Wheat Trade Indicators Pattern took profits on wheat on yesterday's bull.

(By L. J. Overlock.)

BOSTON, April 29.—The copper is steady at this level with the volume of business heavy. There is plenty of "pro" taking and the bulls are working for a reaction but the buying is heavy and the interest larger than for a long time. We look for the upward movement to be continued for at least another ten point advance. New York reports best grades of copper selling at 22.15 cents per pound. Total sales New York, 1,021,300.

In the curb list cornella holds steady around 9.12 to 9.14. Verde sold at 4 with a steady demand. Bids of 10 for Denn failed to bring out any offerings. Wolverine sold at 2.75 with that figure bid for more.

WEST FRONT IS EXTREMELY ACTIVE	
-----------------------------------	--

(Continued from Page One)

submit proposals on the liquor subject and that it is above all important that the country be able to utilize every available resource to increase the supplies of munitions of war. When the time came to drive the Germans out of France and France, he said, the expenditure of war materials must be in a greater scale and of far greater character than anything yet witnessed in any war. The Chancellor laid particular emphasis upon those remarks by the benefit of those who might object to his proposals. "These are necessary," he declared, to insure victory; not ultimate victory, but victory soon without unnecessary loss of life." He said that everybody was agreed on the existence of evil effects of drinking, and that everybody was agreed that the situation of the liquor trade in some of the most important of the world's nations was causing serious anxiety to those in command of the West.

(Continued from Page One)

lines were prepared and after being approved by the governor they were placed in storage for future use.

Christy's statement this morning, when the senate land resolution was up to the effect that the administration was responsible for the failure to enact a land law, made the opportunity desired by the administration forces, and Lines read his statement. He supplemented his prepared remarks with numerous statements of his own thinking. As he progressed he became greatly excited for he is the one who has taken the entire situation most seriously. He had interrupted and asked that the statement being made by Lines concerning corporation influence be more specific in the statement withdrawn.

Others joined in the debate, from both sides, and after it looked for a time like the making of a successful Irish wake, when a motion for recess was declared to have carried. After a short recess, Lines withdrew what he had said and the incident was declared closed.

The complaint of remarks in Lines speech was his reference to Senator Staph as a "would-be knight, engaged in corporation armor and backed by corporation gold." Again he referred to a "money lobby trying to put a corporation collar on members of the house."

CLERGY WON'T GO ON THE WATER WAGON.  
LONDON, April 29.—The clergy comprising the lower house of convocation of Canterbury are willing to set the nation an example in the matter of temperance, but they are not willing to abstain from alcohol. This was the sense of a meeting of the lower house, which passed a resolution, "in view of the duty of the Church of England to set an example of self sacrifice, in the matter of alcoholic liquors." Several members voted only for some measure that total abstinence was not expected of them. Dean Canterbury said that he refused to swear off altogether. He had tried it before, he said, and found it a failure in that it impaired his health.

MORE AIRCRAFT.  
BRIDGE, England, April 29.—The Daily News says that enemy aircraft appeared over Ipswich shortly after midnight and dropped a number of bombs, setting several buildings on fire. Ipswich is in Suffolk county and is a town of considerable commercial importance. Its population is 75,000.

## LEGISLATIVE VIEW OF TWO LEGISLATORS

Arizona Body Should Be In  
Adjournment All of  
the Time

PHOENIX, April 28.—There was an interesting situation arose in the house the first day of the session when the question of the adjournment of the house was up. As the record was read it showed that the motion to adjourn for the day had been made by Representative Christy of Greenlee county. When the time for adjournment arrived Mr. Christy arose and moved a correction, stating that he desired the same for the reason that he had been pleased to hear of a vote to the fact that he had never moved an adjournment. The house, he said, could not work too long hours to adjourn if by so doing the length of the session could be reduced. He had not moved to adjourn the previous day, neither would he ever propose a motion to adjourn. Representative Johns of Yavapai county claimed the house next. He said he probably had moved a correction as he took just the opposite view of the situation as did Mr. Christy. He believed the people of Arizona would be better pleased if the legislature was in adjournment all of the time. It was his opinion that if a record was being made for political purposes he would say ever Christy if Christy's record showed that gentleman was opposed to adjournment while his record showed he favored adjournment. The correction was made that Johns moved to adjourn.

SAVING BSAVERS.  
BERLIN, April 29.—The beaver is making his last stand on German soil and the Prussian government has decided to come to his assistance. There are now only 12 or 13 of the animals left, although they were formerly very abundant in Germany. This saving remnant lives on an old abandoned boat of the River Elbe near a kind of lagoon, near Maderburg. Annual bay are have long been greatly concerned for their fate and have been bestirring themselves to have protective measures taken. Through their exertions the Prussian military having charge of the matter has ordered that the fishing rights of this lagoon be no longer farmed out, but kept in the hands of the state forestry officials who are to receive instructions looking toward the preservation of the beaver.

GERMANY'S HUGE LOAN.  
BERLIN, April 29.—The great box just brought out by the German government called out the small capitalists in numerous other horizons. Based on the reputation of a public loan, when over \$2,000,000,000 German offered subscriptions of 2,000 marks (\$475) and less for the September loan, this was regarded as especially significant testimony to the patriotic enthusiasm of the great masses of the German people. But the March loan has a far more remarkable participation of the small capitalists. Not less than 2,113,226 subscribers took it, taking amounts of \$475 and less and \$52,000 of these made subscriptions of \$45 or under. The total number of subscribers to the loan was 2,542,996, and as the total amount of money subscribed was \$2,337,000,000, the average subscription was \$901.

## WOMAN REFUSES OPERATION

Tells How She Was Saved  
by Taking Lydia E. Pinkham's Vegetable  
Compound.

Louisville, Ky.—"I think it more suffering women would take Lydia E. Pinkham's Vegetable Compound they would enjoy better health. I suffered from a female trouble, and the doctors decided I had a tumorous growth and would have to be operated upon, but I refused as I do not believe in operations. I had fainting spells, bloated, and could hardly stand the pain in my left side. My husband insisted that I try Lydia E. Pinkham's Vegetable Compound, and I am so thankful I did, for I am now a well woman. I sleep better, do all my housework and take long walks. I never fail to praise Lydia E. Pinkham's Vegetable Compound for my good health."—Mrs. J. M. Roney, 1900 West Broadway, Louisville, Ky.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner.

If you are ill do not drag along until operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

FRENCH SUCCESS REPORTED  
LONDON, April 29.—It is reported from Marseilles, says the Exchange Telegraph company's Athens correspondent under date of Thursday, that the French on the Asiatic side of the Dardanelles, where they have been fighting battles at various points, captured 5000 Turks and continued their advance successfully.

IMMIGRATION RIGHTS  
SAN FRANCISCO, April 29.—Farmers of Colusa and Glenn counties whose Sacramento valley lands, aggregating fifty-six thousand acres originally comprised the Central Irrigation District, have been given final rights by the Supreme Court to purchase irrigation waters from the Sacramento Valley Water Side Canal Company without preliminary purchase of water rights.

A decision laid down by the first time rules that a public utility irrigation company making use of public waters under legislative grant, has no right to charge a premium for rights of easements to purchase irrigating water.

FOR BETTER LUNCHES  
MAGGIAROWA, East Prussia, Apr. 29.—An important part of the German Red Cross is the establishment of restaurants in the various towns of East Prussia where ordinary eating facilities are either poor or nonexistent.

Lunch consists of a large plate of soup containing pretty nearly every known variety of vegetable, with enough meat to make it strong and the equal of three ordinary plates of soup. With a cup of coffee it once near to being a square meal.

GLASS OF SALTS  
CLEANS KIDNEYS  
If Your Back is Aching or Bladder  
Blethers, Drink Lots of Water

When your kidneys hurt and your back feels sore, don't get scared and rushed to find your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they drain from it 500 quarts of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—don't drink too much; also get from any source about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium.

It has been used for generations to lean and stimulate sluggish kidneys, to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness. Jad Salts is harmless; cannot form; makes a delightful effervescent fruit-water drink which everyone should take now and then to keep their kidneys clean and active. Try it, also keep up the water drinking, and no doubt you will wonder what cause of your kidney trouble and backache.
